

Grazing Management (CSP Enhancements)
Colorado Enhancement Activity Job Sheet G-2

January 2005

Name:

Manage riparian and/or environmentally sensitive areas as separate management units.

Payment = \$2.00 / Acre / Year for managing riparian and/or environmentally sensitive areas as separate management units with separate/alternate watering sources outside the area or have controlled access with armoring.

Manage access to riparian and/or environmentally sensitive areas by controlling where livestock cross streams, protecting access points for livestock watering through armoring, or fencing off these areas to minimize livestock disturbances in the riparian area. This enhancement may include fencing, armoring water access areas, hard rock stream crossings, etc. as required to protect the areas. Livestock occupation periods in these areas should follow proper vegetation utilization guidelines, identify the length of the period of occupation in the grazing plan and address streambank erosion mitigation measures.

Documentation Required: Use the following table for documentation and attach a plan map showing the location of the riparian area protected. An example is provided to assist you.

Riparian/Sensitive Management Units	Method of Access	Length Of Access To Riparian Area (days)	Acres of Pasture Within Treatment Area	Year Practice Applied
Field 9 <i>Example</i>	<i>Grazing System</i>	<i>45</i>	<i>480</i>	<i>2005</i>

Manage Access to Riparian Areas Certification

I certify that I have managed access to riparian areas as explained in the narrative in the field(s) listed in the Table above.
